

## Art & DT

Can you remember the names of 2D shapes from our Maths learning?

Find a collection of different types of paper and fabrics you have at home.

Use these materials to cut out various shapes and then use them to create a collage picture.

## RE

To continue your learning of the Islam faith, use the link below to watch the BBC children's videos explaining Ramadan, which is an important time for Muslims.

<https://www.bbc.co.uk/newsround/23286976>

Now carry out some good deeds and show kindness to others each day.

## History

Research why we celebrate VE day on the 8th May.

Make Union Jack bunting to put up in your windows.

Enjoy a picnic with your family and learn the song Vera Lynn's 'We'll Meet Again' - think about the meaning behind the song.

## Home Learning Projects

Year 1: 4/5/20 - 15/5/20

## Maths

There are 7 days in a week. Name the days and then write them, putting them in order as you go.

What days do we usually go to school?  
What days are weekend days?

For some extra practice why not use the link below and join in with the Super Movers days of the week song!

<https://www.bbc.co.uk/teach/supermovers/ks1-english-days-of-the-week/zd8njhv>

## English

How many traditional tales do you know that are set in the woods?

Enjoy listening or reading a range of traditional stories set in the woods.

Finally, have a Big Write session at home, sit in a quiet space and retell your favourite traditional tale set in the woods. Don't forget those capital letters, full stops and your neatest handwriting.

## Science

How do plants drink water?

Conduct a Science experiment at home to observe how plants drink water. All you will need is; Water, Jug, Food colouring and celery/ carnation flowers. Place the celery/ carnation in a jug of water and add food colouring. Leave and observe each day to see what happens. Write a diary of what you can see each day.
