

Art

Claude Monet was a famous artist well-known for his beautiful water scenes. Try recreating one of his pictures using any resources you have at home. You could draw, paint or collage your picture. Try painting without a paint brush. Use your finger or a cotton bud instead!

DT

Build a bridge using any materials you have at home e.g Lego, junk modelling resources. Can you make it big enough for you to lie underneath it?

Now try using newspaper and sellotape. Can you still make a bridge?

Geography / Science

Draw a map of your garden as if you are looking at it from above—a bird's eye view.

Draw the plants and flowers on your map. Then draw a key and name as many of the plants and flowers as you can.

Please also see the Yr 2 Science sheet. Have a go at being a biologist and growing your own plants.

Home Learning Projects

Year 2: 20th April — 4th May

If you are unable to access Seesaw, then please work on these activities, alongside the ones we have already sent home, in your home school book. Take a photo of the more practical activities and put them in your book.

Maths

Ask mum or dad if you can look at the change in their purse or pocket.

Make a tally chart of the different coins they have.

Add the coins up to total the amount.

How many different ways can you make different amounts of money?

Science

Find as many balls as you can at home and investigate which is the bounciest. What does 'bounciest' mean? Is it the ball that bounces the highest or for the longest time?

Do they bounce differently on different surfaces? Which surface is the best?

English

Write a non-chronological report about your favourite animal.

Make sure you include sub-headings such as:

Habitat

Diet

Appearance
