

English

We will be continuing with our Curious Quests, a different story per week send to us by Professor Klunk to feed his Big Story Dream Machine! Children will create and draw inventions for the characters of the story and then write sentences (codes) to feed into the portal to the Professor. The codes only work if children remember to use capital letters and full stops! This term we are encouraging children to extend their sentences using 'and' and add a suffix.

RE

Our big question is 'What do creation stories teach people about God and human nature'. The children will hear how Muslims and Humanists believe the world was created and reflect on how all views should be respected.

Computers

We will be using the Beebots app on the i-pads to learn about giving instructions. We will learn to input instructions to make the Beebots move around the grid to get to certain destinations.

Maths

Week 1 - Length and height

Week 2 - Mass and volume

Week 3 - Mass and volume

Week 4 - Assessment Week

Week 5 - Multiplication and Division

Week 6 - Multiplication and Division

Year 1

Term 4 Topic Map

Art

In Art we will continue to admire the work of Vincent Van Gogh. We will use the techniques we practised in term 3 to create different lines and textures, as Van Gogh did. We will use his work to inspire us to create our own masterpieces!

World Book Day 5th March
Parents Eve 25th and 26th March
Easter Tea 31st March, 1st-2nd April

PE and Outdoor Learning

PE on Fridays will be Target games

On Thursdays the children will need to be dressed suitably for outdoor learning.

History

This term in History, we are learning about "My History." The children will explore the past and present by thinking about their own memories and special events. They will create simple timelines using words like *before* and *after*, and talk about celebrations and why they are important. We will also compare childhood today with childhood in the past. To finish, the children will create a time capsule to show how they are making history.

PSHE

In PSHE we will be learning about 'Rights and Respect'. In this unit we will be learning about how to look after our environment, money and how to care for things (such as pets).

Science

In Science, we will learn to identify plants and trees. We will be labelling parts of a plant, learning how they grow and considering what plants we can eat.

Please continue to read with your children at home. Please also remember to complete maths homework weekly and practise spellings from the Year 1 word list. **Phonics screening meeting details coming soon!**
